

GENERAL BLISS REPORTS ARREST OF REBEL QUEVEDO

Along with His Followers at El Paso Who Were Heading a New Revolution.

WILL BE SENT TO FORT

Customs Officials at Vera Cruz Impose Heavy Fines on German Ships.

WASHINGTON, June 1.—Brigadier General Bliss reported to the war department today the arrest of Quevedo and his followers at El Paso yesterday. It is understood that Quevedo was heading a new counter revolution in Chihuahua. He will be sent to Fort Wingate with other Mexican refugees. Quevedo was in the Huerta army which surrendered at Presidio, Texas, but escaped at that time.

Secretary Garrison made an official statement today of the status of the cases of the German ships, Ypiranga and Bavaria, which landed munitions of war for Huerta at Puerto, Mexico, and were fined more than one million pesos by American officials at Vera Cruz. General Funston reported that the ship's agents had arranged bonds. The secretary's statement follows:

"The customs and port officials fined the Hamburg-American liner 119,685 pesos for having discharged a large portion of her cargo consigned to Vera Cruz at another port before arriving at the port of Vera Cruz and for correcting her manifest after arrival in the port of Vera Cruz. The similar fine has been imposed upon the Ypiranga amounting to \$94,950 pesos for failure to correct invoices accordingly and discharging her cargo at a port other than that to which consigned. General Funston states that the officials in question had no action under the Mexican law and has to assess the fines in the sums named. No appeal has been taken on behalf of the vessels and the presumption is that if any proceedings are to be had representations will be made to our state department."

Concerning sanitary conditions at Vera Cruz the secretary said: "The United States army has completed one month's occupancy of Vera Cruz. There have been ashore more than 7,000 soldiers and marines and not one death from disease has occurred within that period."

Two of the lost liner's life boats were found floating downstream today. They were empty.

SUFFRAGETS BURN ST. MARY'S CHURCH

And the Only Property Saved is Ancient Register and a Few Ornaments.

HENLEY, Eng., June 1.—An arson squad of militant suffragets today destroyed the historic parish church of St. Mary's, three miles from here, on the Thames.

All that remains of the church, which was built in 1538, is a portion of the tower and the scorched stone walls.

Two women strangers were seen in the neighborhood this morning. Just inside the ruins the firemen found a hammer and a heap of suffrage literature with a placard, "Stop persecuting women."

The only property saved was an ancient register and a few church ornaments. These were rescued by the vicar, the Rev. Mr. Batty, who rushed through the flames to get them.

The church contained many priceless treasures, including some bells four centuries old, which melted in the flames, and a monument to Thomas Day, author of "Sandford and Merton."

AGREEMENT SIGNED BY SOME COMPANIES

Thus Reducing the Number of Striking Coal Miners in the Kanawha District.

CHARLESTON, June 1.—Yielding to the contention of the miners that the operating companies should collect the dues of the United Mine Workers a number of coal companies operating on Paint Creek signed the working agreement today and the number of striking miners was reduced to approximately 8,000.

At other points in the Kanawha coal field agreements had not been signed but the men were at work as usual and formal settlement was expected before the end of the week.

On thousand miners of the Solbay Collieries Company on Paint Creek obeyed the strike order, there being no intimation that the company would yield. Work was not suspended at the mines of the Christian Collieries Company.

No developments were expected there until information of the action taken by the board of directors in session at Lynchburg, Va., today reached the management here. Belief that the strike would be of short duration prompted operators and miners to view the situation optimistically.

The effect of sending the resolution to the committee is to delay action. Senator Norris objected to that course. One hand still clutched a piece of cambric, probably torn from the night-dress of his wife, whom he was making desperate efforts to save when they were last seen alive. SHARP POINT OF AN ANCHOR MAY EXPLAIN

Why the Collier, Storstad, Did Such Execution When It Rammed Empress.

MONTREAL, June 1.—The sharp point of an anchor projecting from the twisted bow of the Norwegian collier, Storstad, may explain why that vessel did such terrible execution when she rammed the Empress of Ireland early last Friday morning in the lower St. Lawrence. An examination today of the collier's shattered plates revealed the anchor jammed in a position where it could have ripped through the hull of the Empress like a great can opener. The anchor point and portions of the battered steel surrounding bore stains of blood. One of the officers of the Storstad said today:

"At the time of the disaster I was lying in my bunk. I was awakened by a shock and at first thought the ship had struck a rock. I went to the deck and looked over the side. The Storstad was going full speed. The water around was filled with struggling men and women shouting for help. Boats were lowered and there was not a man on the Storstad who did not do his utmost to help rescue the people in the water. We in the boats brought the survivors to the deck of the Storstad. From there they were taken into the engine room. Some of the survivors had been so numb by the ice cold water that they leaned up against the cylinders of the engines until their flesh was blistered."

Prosecutor Fails to Prove They Worked on Sunday and the Cases Are Dismissed.

Charges of laboring at a trade or calling on the Sabbath day against Hugh A. Shannon, manager of the Clarksburg club of the Pennsylvania-West Virginia baseball league; Dorsey Jones, a pitcher of the Clarksburg team; and Frank Frezell and John Mullen, Conneville players, were dismissed at trials Monday forenoon in Magistrate G. H. Gordon's court. The cases were the outcome of the riotous proceedings Sunday afternoon at Union park when Sheriff Ross F. Stout and a band of deputies broke up a baseball game between the Conneville and Clarksburg teams. It was also an outcome of A. Judson Findley's sudden and inexplicable conversion against the national game, which in the past had not been disturbed on Sundays so far as he was concerned. Findley is the fellow who has been trying to hold down the job of county prosecutor since the last election.

The hearing, which lasted all morning, brought out the facts that neither Shannon nor any of the other three players who were arrested had taken part in the baseball game and on that ground the warrants against them were dismissed.

On charges of counseling and advising baseball players at the park to resist the sheriff and his deputies, Isaac Adieberg and J. Brown, were arrested and taken before the same magistrate Monday morning, but they were released under bonds to appear for hearings at 7:30 o'clock Thursday evening. Brown was considerably excited over the proceedings and when someone jocularly told him that he would probably be sent to jail he fainted dead away. A short time afterward he had another fainting spell. The court room was crowded with interested spectators and Brown's collapse caused considerable commotion.

Calvin Netzer is the fellow who swore out the John Doe warrants against Shannon, Jones and the Conneville players. Netzer resides near the baseball park. John Siers made the complaint against Adieberg and Laco Wolf, deputy sheriff, swore out the warrant against J. Brown.

At the close of the hearing, Hugh A. Shannon, manager of the Clarksburg club, left the city for his home at Buffalo, N. Y. He settled all financial claims against him before leaving.

INSTANTLY KILLED IS FRANK CHURCH

When He Is Mit by Interurban Car of Monongahela Valley Traction Company.

Frank Church, colored, aged 29 years, was instantly killed at 12:30 o'clock Sunday afternoon when he stepped off the Baltimore and Ohio railroad tracks in front of a Monongahela Valley Traction Company Interurban car near the Clarksburg Ice Company's plant in the west end.

Church and his stepson, who live at Point Comfort, were on their way to get a piece of ice. They were walking the railroad track and when they saw a freight train approaching they stepped off the railroad tracks onto the street car tracks, not noticing the approaching street car.

The street car struck Church in the head, causing a fractured skull. He died instantly. The boy escaped unhurt, as he was walking a little behind his stepfather.

The motorman on the street car made a desperate effort to stop the car before it struck Church, but he was so close to him when he stepped on the track it was impossible to stop the car.

The body was taken to a local undertaking establishment and prepared for burial. It will be taken to his former home in Virginia this evening and the funeral services and burial will be held there Tuesday. The deceased man is survived by his widow, a brother and a stepson.

JOINT CONFERENCE NEXT

After the Convention to be Held in Columbus by the Miners Today.

COLUMBUS, June 1.—Delegates from local unions of the Ohio United Mine Workers began arriving here this morning for the convention here this afternoon preceding a joint conference with Ohio operators to be held tomorrow in an attempt to fix a wage scale and end the present strike.

Most delegates came unaccompanied by their locals. It was said at miners' headquarters. It will not be known until the roll is completed and credentials are presented whether a majority have been left free to arrange the best scale possible with operators regardless of their former demands for seventy-one and three-sevenths cents a ton for picked mine coal and 49 54-100 cents for machine mined coal payable on the mine run basis.

Many miners' delegates who arrived today expressed a wish to end the present idleness. Strike benefits of \$5 were paid two weeks ago but the treasury of District No. 6, United Mine Workers composing Ohio, has been nearly depleted.

Miners have been idle since April 1 but a strike was declared only two weeks ago.
